Not long ago, the kitchen of each house was a factory that created and insured every year the food needs of jam, olives, yoghurt, korish cheese, thyme, shanklish, macadam, pickles and some dried vegetables such as pumpkin, okra and black eggplant.

Every mother of the days was a production manager that gives the family a distinctive production in every taste of quality, cleanliness and diversity.

**Emesa Food brings back to us the taste of the old beautiful days!**
